**Examination Manual**  
**Future University, Bareilly**

**CHAPTER: 13**

**AWARD OF GRACE MARKS**

The following method will be followed for giving "Grace Marks" to the students:

**13.1 CALCULATION OF GRACE MARKS**

While calculating the available maximum grace marks in a particular Professional/Year/Semester/Trimester, the usual "Round off" rule is to be implemented i.e. if the grace marks come out to be a fraction, then the marks will be changed to the nearest whole number.

**13.2 DISTRIBUTION OF GRACE MARKS**

- a. Grace Marks will be given to a student (PCI, BCI, MCI and other counseling related course run accordingly)
- b. In case the student needs Grace marks in more than one subject or components or parts of it, then the subject/component/part will be chosen for such a provision, where the minimum marks are required by the student to get pass. In case of further availability of remaining grace marks, the next subject/component/part will be chosen in the similar fashion as described above. The said procedure will continue till the availability of Grace Marks.
- c. The grace marks will be given only if the addition of it enables the student to get pass in a particular subject/component/part of it and in no case be given only to improve the Percentage/Division/Grade/Earned Points in a subject/course or as a whole.
- d. In case the student requires equal value of Grace Marks then the preference will be given to a subject where such an allocation will change the result of the beneficiary from 'FAIL' to 'PASS' in all components/parts of it.
- e. In case an equal value of marks is required to a student to get pass, in more than one subjects/courses then the subject/course with a lower or smaller University code value will be put on priority while doing such an allocation of grace marks.
- f. In no case the addition of Grace Marks, should lead to "a double jump in the grade" or "a higher value in the marks more than the minimum pass marks",  
for example, a student secures 37 marks and the pass marks are 37.5, then only 0.5 marks to be added as Grace Marks.

**Examination Manual**  
**Future University, Bareilly**

- g. It is important to note that the "Round off rule" of the university will be applied first as per the established procedure and then only the application of Grace Marks will be done. Wherever, such a Round off is not applied due to 'Pass marks' coming out in fraction (such as 37.5 or 12.5 etc.), the student may require grace marks less than 1 or any number with a fractional value, then the addition of the exact required value in fraction, will be made, however a subtraction of a whole number will be made from the available Grace Marks against every such fractional allotment. For example; a student secures 12 marks and the Pass Marks are 12.5, then only 0.5 marks will be added to 12 but a deduction of 1 mark will be made against allocation of such a fraction. In case student secures 11.2 marks then an addition of 1.3 marks is to be made to the originally obtained marks but a deduction of 2 marks will be made from the available Grace Marks.
- h. The provision of Grace Marks is a privilege given to a student and is a sole discretion of the university. This should no way be taken as a right to a student.
- i. In case of any dispute or doubt the Controller of Examinations of FUTURE UNIVESITY or a person in charge for such position, will be empowered to take the final decision in this regard and no further request will be entertained from anyone in such matters.

**26.1 GRADING METHOD AND COMPUTATION OF SGPA/CGPA**

The grading method for evaluating students' performance involves award of grade according to the range of total marks in the course. The range of marks between any two grades is framed in such a manner that the effect of individual marking/checking technique on the overall grading is minimal.

**26.2 KEY DEFINITIONS:**

- a. **Programme:** An educational programme leading to award of a degree, diploma or certificate.
- b. **Course:** Usually referred to, as 'papers' is a component of a programme. All courses need not carry the same weight.
- c. **Credit:** A unit by which the course work is measured. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours for Practical Work/Field Work/ Research Based Paper /Project per week.
- d. **Credit Point:** It is the product of grade point and number of credits for a course i.e, Credit Point = No. of credit in a course x "grade value" of the grade obtained in the course.
- e. **Semester Grade Point Average (SGPA):** The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the Courses undergone by a student, i.e.  $SGPA(S_i) = \sum (C_i \times G_i) / \sum C_i$
- f. **Cumulative Grade Point Average (CGPA):** CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of programme, i.e,  $CGPA = \sum (C_i \times S_i) / \sum C_i$
- g. **Grade Point:** It is a numerical weight allotted to each letter grade on 10-point scale with 7/6/5 LETTER GRADES: It is an index of the performance of students in a said course.
- h. Grades are denoted by letters like O, A+, A, B+, B, C, D and F.

**26.3 SGPA AND CGPA CALCULATIONS CAN BE EXPRESSED AS**

$$SGPA(S_i) = \frac{\sum_{i=1}^n C_i G_i}{\sum C_i}$$

$$CGPA = \frac{\sum_{j=1}^N SGPA_j}{\sum_{j=1}^N \sum_{i=1}^n C_i} = \frac{\sum_{j=1}^N \sum_{i=1}^n C_i G_{ij}}{\sum_{j=1}^N \sum_{i=1}^n C_i}$$

Where

n = Number of courses registered,  $C_i$  =

Course credits,

$G_i$  = Grade point,

N = Number of semesters.

**Formula for calculating percentage of marks;**

**1. Scope and Applicability:**

This policy applies to all examinations conducted by the university, including undergraduate, postgraduate, professional programs, and any other formal assessments conducted as part of university courses.

- **Adherence to Standards:** All evaluators must follow the university's marking scheme or rubric, ensuring consistency and fairness in the grading process.
- **No Influence on Results:** The evaluation process should be free from any external influences, and grading must solely reflect the student's performance in the examination.

**3. Process for Answer Book Evaluation:**

**Examination Manual**  
**Future University, Bareilly**
