

Annexure 5

List of Bridge / Remedial Courses

Academic Session 2025–2026

To support educationally weaker students and facilitate a smooth transition into mainstream academic programmes, the Future University has designed and offered the following Bridge/Remedial Courses during the Academic Session 2025–26. These courses aim to strengthen fundamental knowledge, improve academic preparedness, and enhance students' learning outcomes.

S. No.	Name of Bridge / Remedial Course
1	Foundation Course in English Language and Communication Skills
2	Foundation Course in Quantitative Methods
3	Information Technology and Computer Applications Lab
4	Remedial Mathematics
5	Basic Accounting and Financial Literacy
6	Fundamentals of Business Communication
7	Personality Development and Soft Skills

Objectives of Bridge/Remedial Courses

1. To bridge the knowledge gap among students coming from diverse educational backgrounds.
2. To strengthen foundational concepts required for successful completion of mainstream courses.
3. To improve communication, analytical, quantitative, and digital skills.
4. To enhance students' confidence, academic performance, and employability.
5. To provide additional academic support to educationally weak students through structured learning interventions.

These courses are offered through lectures, tutorials, laboratory sessions, assignments, mentoring, and continuous assessment mechanisms as per the University's academic support policy.
